Welcome Back to the TV blog

3/6/2008 10:50:53 AM

Welcome back to 247-TV.com. There will be much more blogging now that we have some kinks worked out. With the writers strike which did slow the TV world down. I am hoping that Grey's anatomy will return with what was cut short. Of course we watch TV episodes "House" and "Bones" to watch with great appeal. We hope that the writers and actors will... Do you ever miss a tv show episode? Do you ever forget to turn on the recorder to record your tv episode? Or do you think that you are recording your tv episode but actually record something else? We are always having some kind of mishap with our recorder and we are not able to watch tv episodes that we thought we recorded. My husband is too cheap to get a service so we... [Read More](#)

TV Review: My Name is Earl

8/26/2007 10:35:43 AM

TV episode

If the wacky NBC comedy *My Name is Earl* isn't the funniest comedy TV show episode on the boob tube, then I don't know what is. If you don't believe me, just watch TV episodes of this gleeful celebration of bad behavior and white trash stupidity and see if you don't laugh out loud. When I'm wondering whats on TV, I always check the listings for a TV... [Read More](#)

What's Wrong With TV Episode Syndication

8/26/2007 10:20:56 AM

tv episode

Almost every successful TV show that accumulates enough episodes goes into syndication. But that can be both good and bad, for one thing an earlier TV episode from a long-running series may make the current episodes look dull and formulaic by comparison with whats on TV now. Take a show like the Gilmore Girls for example. The current TV show... [Read More](#)

This weeks TV Review we take a look at FX's new hit legal drama *Damages* starring Glenn Close and Ted Danson. This great new show is just one more example of whats on TV today. Burn Notice Series Premier

7/10/2007 3:40:00 PM

Burn Notice

Joining the summer season bandwagon with other great shows like *The Closer*, *The Dead Zone*, *Rescue Me*, and *Phych* comes a new comedy/drama ("Dramedy") from the *USA Network*, *Burn Notice*. Starring Jeffrey Donovan and actor Bruce Campbell should prove to be quite entertaining.

Donovan stars as Michael Westen a government operative agent that gets "burned" in the middle of a dangerous... [Read More](#)

With this summer season sizzling along with shows like *The Closer* and *Rescue Me* comes the return of Phych and the series premier of *Burn Notice*, *The Dead Zone* has under gone some interesting changes. 6/27/2007 11:00:00 AM

We've discussed *The Dead Zone* and *Rescue Me*'s season premier, now let's discuss the premier of TNT's *The Closer*. The Dead Zone

The *Dead Zone* and *The Closer* both premiered this week with a bang just like last weeks premier of *Rescue Me*!

Just like the method we discussed with reoccurring storylines with CSI and Nip/Tuck, *The Dead Zone* has used this method throughout the entire show with their upcoming apocalypse scenario with character Congressman (now Vice President) Greg Stillson. Now this storyline was... [Read More](#)
